European Windows
3315 Dawsonville Highway
Gainesville, GA 30501

Dear Bernie and Christel,

I wanted to thank you so much for the beautiful windows you installed in our home. They look so wonderful and we have had many compliments on them already. Your installation team was very neat and clean, never leaving a mess for me!

We have had water problems in our house for many years, from buckling paneling, peeling paint, bubbling plaster to double paned doors and windows that had the milky glass because they were not properly sealing. All of that has been taken care of with the new windows. I can now have the areas that were damaged around the old windows repaired for the LAST TIME! We have just been through one of the coldest winters in a very long time and we did not feel the first draft!

Thanks again for the fantastic product and the wonderful service.

Yours Truly,

Brad Sherri
